

TECHNICAL INFORMATION SHEET (TIS)

PREMCLEAN

Cream Cleaner - Code No. 108008

INTRODUCTION

A Premclean comprehensive range of products to meet most housekeeping needs in hotels, halls of residence, nursing homes and other residential premises. These products are also suitable for use in commercial premises for the routine care and maintenance of furniture, washable hard surfaces, internal glazing (including mirrors) and fixtures and fittings in offices as well as in toilets, washrooms or bathroom areas. None of these products are suitable for use on soft furnishings.

First Class results can only be achieved using the correct equipment and products within the framework of a regular cleaning programme. The range of products enables the user to select those with precisely the right characteristics for the various tasks within any housekeeping department.

In the case of difficulty in making the correct choice or for further information on Premclean cleaning systems and extensive range of cleaning and maintenance chemicals, equipment and machines, contact our Head Office in Limassol.

CREAM CLEANER

A mildly abrasive general purpose cleanser, **Cream Cleaner** contains surfactant and carbonate for the removal of stubborn dirt and stains from most modern washable hard surfaces. It is ideal for the regular cleaning of hard plastics, laminates, vinyl, ceramics and stainless steel, chrome or enamel surfaces. It is also ideal for the regular cleaning of hard plastic baths and other soft plastic surfaces.

A viscous white cream, with a pleasant citrus fragrance, **Cream Cleaner** is especially suitable for the routine maintenance of surfaces in toilets, washrooms, and bathroom or shower areas.

The pH of **Cream Cleaner** under typical analysis is 9.5.

DIRECTIONS

Always wear the appropriate protective clothing and read product label and Safety Data Sheet before use.

CLEANING TECHNIQUES

Shake the container well before use, squeeze a small amount of liquid onto a damp cloth and apply to the soiled surface. Rub gently to remove the soiling and the mark or stain then rinse surface with fresh water and wipe off with a clean cloth. Buff lightly with a dry cloth to enhance the shine and restore the original finish. Cream Cleaner is recommended for use on plastic baths or other soft plastic surfaces.
