

TECHNICAL INFORMATION SHEET (TIS)

PREMCLEAN

Window Cleaner - Code No. 108003

INTRODUCTION

A Premclean comprehensive range of environmentally friendly products to meet most housekeeping needs in hotels, halls of residence, nursing homes and other residential premises. These products are also suitable for use in commercial premises for the routine care and maintenance of furniture, washable hard surfaces, internal glazing (including mirrors) and fixtures and fittings in offices as well as in toilets, washrooms or bathroom areas. None of these products are suitable for use on soft furnishings.

First Class results can only be achieved using the correct equipment and products within the framework of a regular cleaning programme. The range of products enables the user to select those with precisely the right characteristics for the various tasks within any housekeeping department.

In the case of difficulty in making the correct choice or for further information on Premclean cleaning systems and extensive range of cleaning and maintenance chemicals, equipment and machines, contact our Head Office in Limassol.

WINDOW CLEANER

A non-abrasive cleaner for glass, laminates, metals and ceramics which evaporates leaving a clean, smear free, shiny surface. This pure formula has the latest innovative technology employing deionised water, as hard water salts can produce water marking on drying if sprayed and not buffed. It has no synthetic fragrances, no acetic acid vinegar and no ammonia just a pure formula for a smear free finish.

The pH of **Window Cleaner**, under typical analysis is 6.0.

DIRECTIONS

Always wear the appropriate protective clothing and read product label and Safety Data Sheet before use.

CLEANING TECHNIQUES

Insert the product in a trigger spray pack. Spray sparingly onto the surface from a distance of approximately 15cm (6 inches). Spray a small area at a time and spread the product over the surface with a clean, lint free cloth. Continue buffing with a dry section of the cloth to achieve a clean, shiny, smear free finish. On small items, or to avoid over spray onto adjacent surfaces, spray the product lightly onto the duster and apply as normal. Dispose of empty containers after use, but retain trigger spray for use on other trigger packs. Do not use on any food preparation surfaces or electrical equipment.

COVERAGE

An aid to budgeting and operational planning. A full 5 litres pack should enable a total surface of 2500 – 3000m² to be treated.

PRODUCT SELECTION

Use the following to determine whether **Window Cleaner** is recommended for the various typical surfaces or articles indicated. Where doubt exists seek technical advice or conduct a suitable trial.

GLASS	LAMINATES	METALS	CERAMICS
Windows	Work Tops	Stainless Steel	Tiles
Mirrors	Furniture	Chrome	Cabinets
Table Tops	Bedroom Units	Aluminium	
Picture Frames	Bathroom Units		
Screens			

HEALTH AND SAFETY INFORMATION

Appropriate Health and Safety information is detailed on the individual product label of relevant Health and Safety Data Sheet.

PACKAGING

4x5 litres

Premclean Code No. 108003

No liability is accepted for any loss or damage arising directly or indirectly from the use of the Company's products, or from the use of the information given in its publications; neither is any warranty given or implied of freedom from patent rights. Prospective users should, therefore, satisfy themselves by appropriate trials that the product to be used is suitable for the intended use and that such use will not infringe any patent.

We continue to reserve the right to alter designs of any products as part of a further process of improvement and products supplied may therefore vary from those detailed on this Technical Information Sheet.
